

"Working for Kaman's has impacted my life in ways that I never could have imagined, and as the summers have passed, even my coworkers and managers have seen me undergo a huge change. Although I started out as a shy, socially awkward 17-year old, I have learned to conquer my once extreme introversion, taken on roles as an authority figure, dramatically increased my confidence around others, improved my artistic abilities, and (most importantly) learned how to stand up for myself in the most difficult of situations. I am not the same person that I was when I came, and I am forever grateful that I was given the opportunity to better myself with the help of so many wonderful people."

"Working as a line employee caricature artist for Kaman's Art Shoppes looked great on my college application, and getting promoted to lead, supervisor and manager afterwards was huge on my resume for years. I worked with knowledgeable managers and hilarious coworkers, many of whom I'm still good friends with a decade or two later. I started as a quiet kid who liked to draw and, within a couple of years, became an extroverted guy with a strong work ethic and formidable customer service skills. Working with Kaman's has been a really positive experience for me, and I highly recommend it."
